Subject: Myddelton Square

I have received information from you regarding the proposal to charge residents for the use of the Square. I have lived in Myddelton Square since 1978, it has always been a much needed public amenity space and must surely continue that way. There is no precedent in this area for charging for residents use of public spaces . The alternative would be for the Borough to charge for the use of all squares. Our Borough cannot be compared to any other Borough so the Landlord's report is completely irrelevant.

I have a garden at the rear of my property so there is no way I would consider paying for using the Square but I would happily contribute to the purchase of much needed plants.
